MINIMUM GRADUATION REQUIREMENT SUMMARY (24 CREDITS)

IMPORTANT!

- **Meeting the requirements for graduation does not necessarily mean that you have met entrance requirements for post-secondary programs!**
 - **It is YOUR responsibility to find out what the entrance requirements are for the post-secondary programs in which you are interested! (Need help with this? Just ask!)**
- 

REMEMBER...

- Marks matter!!
- Post-secondary programs care that you have the right marks in the right classes.
- You need to keep on top of what's required as admission criteria can change from year to year.
- Volunteer work is heavily weighted for many scholarships
- Extra-curricular involvement is also factored into many scholarships

- **Competitive**--These programs establish a base line academic average for acceptance, but will only offer admission to those students with the highest averages. They may also include non-academic criteria such as interviews, essays, volunteer experience, or work experience within the field in their selection processes.
- **First Qualified/First Admitted**-- Applicants who meet minimum entrance requirements are admitted according to the date of their application.

COMMON POST-SECONDARY ADMISSION TYPES

THANK YOU!

- Be sure to read the **POST-SECONDARY, CAREER, & SCHOLARSHIP** updates!
- Feel free to book a time with Miss Johnson to discuss your options or credit requirements.
